WORK EXPERIENCE

Software Engineer

Tech Mahindra

05/2022 - Present

Software Developer

Tekno Point

02/2020 - 04/2022

Helping stake holders to adopt the Adobe Marketing Cloud Environment (Adobe Analytics, Adobe Experience Manager, and Adobe Target)

Achievements/Tasks

- Created site search functionality using Javascript as frontend and SOLR on backend
- Implemented API calls to generate data on the UI
- Created dynamic and authorable components in AEM and bind them on to webpages
- Assessed threats and vulnerabilities in the code using Checkmarx utilities and fixing them

ACADEMIC PROJECTS

OCR (06/2015 - 03/2016)

- An android application for booking Cabs along with account management options and tracing cab locations, host locally.

The Pizza Expertise (01/2018 - 03/2018)

- Developed a pizza blog website based on Html5 and CSS and free hosting.

Krishi Kalyan Portal (06/2018 - 04/2019)

- A webpage which guides farmer to predict which possible diseases a crop can get affected to; so that preventive measures can be applied from the start of the agriculture process. The farmer needs to input the soil moisture, predictions are produced by applying data mining algorithms on the temperature and climate of the region and the soil moisture.
